BACKGROUND:

Right To Play is a global organisation that protects, educates and empowers children to rise above adversity using play. By harnessing play, one of the most powerful and fundamental forces in a child’s life, we helped 2.3 million children last year to stay in school and out of work, to prevent life-threatening diseases like HIV and malaria and to stay safe from exploitation and abuse. We are the only global development organization focused exclusively on using play to transform the lives of children and youth impacted by poverty, war, disease and inequality.

Established in 2000, Right To Play reaches children through experiential programming in 15 countries in Africa, Asia, the Middle East, and North America. These programs are supported by our headquarters in Toronto, Canada; London, UK and eight national offices across Europe (Germany, The Netherlands, Norway, Sweden, Switzerland, UK) and North America (Canada, US).

With a shared passion for our mission, our Culture Code guides how we act and interact based on five core pillars:

- Accept Everyone – *Be intentional about inclusion*
- Make Things Happen – *Seek opportunities to lead and innovate*
- Display Courage – *Act with integrity*
- Demonstrate Care – *Look after yourself and one another*
- Be Playful – *Have fun at work*

PROGRAM SUMMARY:

The Sexual Health and Reproductive Education (SHARE) program is a new program funded by Global Affairs Canada. This program will operate in Ghana, Mozambique and Uganda, and will use a gender-transformative and rights-based approach to improve the reproductive health of adolescents, particularly girls and young women. SHARE is a five-year program that will work with girls and boys aged 10-24, both in and out of school, to empower them to demand better sexual and reproductive health care. The initiative will also work with Community Health Workers and Health Care Facilities to ensure their services

are adolescent-friendly and gender-responsive and engage community members in activities to increase support for adolescents and young people to access SRHR education and gender-responsive services.
